Re: State - Artificially Stored Groundwater Application No. QB-1660A
Grant County – WRIA 42 – Quincy Groundwater Management Subarea

Dear Mr. Kaufmann:

On December 5, 2012 our office received the above referenced Application for Artificially Stored Groundwater (ASGW) within the Quincy Groundwater Management Subarea (QGWMS). The proposed place of use and well location are within the 'Gray' Area of the QGWMS.

Chapter 173-134A-085 Applicability. "The total withdrawal limitations of WAC 173-134A-060 and 173-134A-080 shall apply only to that geographical area within the Quincy ground water subarea that was described in the declaration of ownership of artificially stored waters by the United States Bureau of Reclamation accepted by order of the department under Docket Number 74-772 dated January 8, 1975.

As discussed, the broader 'Yellow' area boundary is the geographical area defined by Ecology for the QGWMS whereas the slightly smaller 'Gray' area boundary is the geographical area defined by Reclamation. See enclosed map.

Therefore, in order to retain QB-1660A on the waiting list the proposed well location(s) must be within the 'Yellow' Area. I have enclosed a map of QB-1660A for your use. Please mark on that map the location(s) of the proposed well(s) for this project. If you do not own the land on which the proposed well(s) are to be located a landowner signature will be required, see attached form.

Please submit the above no later than August 30, 2013.

Future correspondence concerning the above should refer to Artificially Stored Groundwater Permit No. QB-1660. Please direct all questions to:

Ecology: Katherine.Ryf@ecy.wa.gov; Spokane office 509-329-3586
Reclamation: Paula Chapel, MChapel@usbr.gov; Ephrata office 509-754-0225

Sincerely,

Katherine A. Ryf
